HENAN JINSHUI CABLE GROUP CO., LTD
NO.82, KEXUE AVENUE, NEW&HIGH-TECH INDUSTRIAL DEVELOPMENT ZONE, ZHENGZHOU CITY, HENAN, CHINA.450001 Tel: +86 13838134319 leo@zzjscable.com

All Aluminium Alloy Conductor (AAAC）

Technical Data **AAAC**

- Conductor comply with BSEN50182 ;ASTMB398
- **Minimum Bending Radius**
  30x cable Ø
- **Permitting long-term operating temperature**
  75℃

Application

6201-T81 aluminum alloy wires, concentrically stranded, suitable for overhead transmitting and distributing electric circuit, application for use in the area of mountain hill heavy snow and windstorm and long-stride project.

Drawing

7 STRANDS

Main data

Size mm²	Conductor		Rated strength	Max.DC. Resistance at 20℃	Overall diameter mm	Approx. weight Kg/km	Capacity 40℃ A
	Aluminium alloy single wire						
	Nos.	Diameter	KN	Ω/km			
35	7	2.5	10.81	0.9669	7.56	95	170
50	7	3.0	13.82	0.6714	9.0	135	196
