Product charateristics

- Lina 25 ducting can be cut to length without using a saw. After making 2 lateral cuts with the Lina 25 tool, the ducting can be separated manually by a simple snap, thanks to the cut - outs on the bottom.
- Lina 25 ducting can be used to create a T junction between vertical and horizontal ducting without obstacles.
- Non-metal product, no electrical continuity.
- Blue 2525 AFNOR

Recommendation / Restriction

- Recommended for industrial environments without any particular constraints.

The product's benefits

Installation

- Installation position : on vertical or horizontal surface, cover facing down not permitted.

Usage

- The cover is easily fitted on the ducting either by clipping on the front or by rotating it. It can be opened without special tools.
